

Technology Advisors

TECHNOLOGY AND DATA SERVICES

In today's ever-shrinking and demanding world market, one of the most challenging tasks facing a company is utilizing and processing information effectively and efficiently.

Using a proven methodology, the Schneider Downs Technology and Data Advisors have been implementing solutions that streamline and automate processes, provide data visibility and improve enterprise wide communication for organizations of all sizes and industries, including:

Cybersecurity

The Schneider Downs cybersecurity practice consists of experts offering a comprehensive set of information technology security services, including penetration testing, web application penetration testing, intrusion prevention/detection review, ransomware security, vulnerability assessments and a robust digital forensics and incident response team.

Digital Transformation

The Schneider Downs Digital Transformation team leverages technological innovations and business expertise to develop strategic, transformative solutions that drive business process improvement for organizations of all sizes.

Data Analytics (ADAPT)

Schneider Downs ADAPT offers a lineup of descriptive, predictive and prescriptive data analytic services to help

transform unworkable data into actionable business insights.

Business Process Automation (RPA)

The Schneider Downs Business Process Automation team is committed to assisting clients with the evaluation, adoption and implementation of robotic process automation technology.

Technology Consulting

The Schneider Downs Technology Advisors help our clients identify and implement technology to improve their business.
